Introduction and Explanation

I started getting words about I90 (We call it River90 because of some words you will see below) in 2008. At that time, I did not realize the importance of the words I received, so I put them in my journal until about 2012. At that times I shared a few of the words with Barry Thompson (Previous Pastor in Austin on River90). He encouraged me to share them. I have shared them in part over the years, but now I think we need to see them all together. I believe that the outpouring of Holy Spirit on "The River90" (See picture on cover) will be a work so pervasive and astounding that the nation will see it and marvel at the completeness of the transformation that will come. I'm not sure if I have all the words that I've received over the years listed here, so this is the best cut I can make at all the words together. Part of what you will read below is my trying to get what God was saying and learning how to hear Him accurately. I share these words expecting you to discern them for your selves (Eat the Meat and spit out the bones... so to speak).

One thing I am sure of is that God is going to do such an amazing work along I90 (AND TWO COUNTIES ON EACH SIDE OF IT) that it will be the subject of many books and articles... It is going to be amazing... I burn with all my heart to see the words come true for the Glory of God!

Some words are not from me, so note that in the titles of the words. Terry Pratts has contributed several words.

Thanks to Terry Pratts, Rod Marquette, Jeff Rasmussen, Berry Thompson, and my wife for all the encouragement over the years.

I have produced another document that has Prophetic Word over all the towns of counties that touch I90. I hope to have word for all towns two counties on each side of I90 at some point. The name of this Document is "I90 Counties Words for towns 031819"

08 0131 Word: Fire starting

Here is what I want you to see:

- I want to start fires, many small fires throughout the region, much like they do when they start fires to circumvent the power of a large forest fire. But I am starting fires that will create a large forest fire ... Remember when Gideon went into attacked the camp with the jars? So, it will be with you!
- I have my people that have tasted me from the past**, who are now very thirsty for My Holy Spirit, they are the ones that will catch fire... again. They are now dry tinder ready to burn for Me! These are the older ones.
- I will also start fires in youth, through their interest and curiosity. They want to experience me ...and they are ready, I say. There will of course be those who will resist My Spirit, but I say "remember Azusa Street" how I handled them there!
- I am directing this entourage of activity, this flurry of the flow of my grace, this empowering storm ... You can see and watch Me do it ... I will direct, and shepherd this clean flowing work I am doing...
- Vision:** (in this time frame) I saw a vision (it flashed through my spirit) of the Lord standing over these small towns and other small towns (along I90 as looking down on a Google map street view) with a large lit wooden match, and as he

would bend down with one knee and touch the match on the town, it would immediately start to burn with flames coming up... First this one, then that one, **as He touched each one... The cities I saw were Austin (1st), Albert Lee, Fairmont, Blue Earth, and Wykoff, Starting at Austin.**

09 0509 Word on Rochester/Destiny Church

- There is a powerful move of by Me (Holy Spirit) that is coming, that on the surface will seem or look like a little wave, but it will have a massive effect in loosening hearts in this area for Me... So that people can see, become willing to see Me, and then be able to come close.
- Up to now this area (Rochester) has been a religious city, and there are many in her that know Me but are subdued and unseen, and not involved with organized activities. But these I will open up within their hearts a new desire (as opening up the atmosphere above them for a free flow of My life). Many will enter in to a new relationship with Me unknowingly (i.e. they will start praying in new ways, talking to me in new ways, without realizing the change has taken place) and will only later understand what has happened in their lives. It will be at this point (when they realize the new desire for Me) that they will come alive visibly (for all to see, but previously in their own lives only, and in the prayer in their churches, etc.) and will start telling of these new things to others. This testimony will spread and ignite a great awakening, because My voice, and the work of My testimony has great power.
- The work of the intercessors in this city, along with the worship that is breaking forth in new ways in certain areas, will be the fuel that produces these changes.
- Don't be discouraged if you do not see "great numbers, new activities, etc.". Though there will be things you can see, know that there is a great under working happening and increasing that you are not seeing, these will work in concert with the things you are seeing and experiencing. NET: Be encouraged that I am moving, and that you (Destiny Church) are having an effect beyond what you know and can see... Your intercessors are a great bunch. They are greatly appreciated by Me.

09 0416 Wykoff word (Personal word to Les)

- This is a new hour, and anew day, says the Lord, but now do not proclaim doom, but glory, show them the glory I have planned for her ... call her people out ... even the old ones that think they are past be productive and prolific...
- What I want you to do is to start proclaiming what I am desiring to do in these cities.

- 3) Oh! how great a thing I will produce from Wykoff... The heritage of her children will be greatly remembered... She (Wykoff) is not an insignificant as people might think.
- 4) **Wykoff:** So, give this word... proclaim it in her streets... that she is great... that I beckon her to come follow Me ... to see what I have for her ... to see the nuggets of glory and greatness I shall produce from her ... See I have My eye trained on her ... Oh the things I want to do through her ... that are in My heart ... Tell her to come alive... call the one I have called to come forth, and not be shy... Yes, they have heard My voice in their prayers ... watch and see, watch and see, watch and see ... See Wykoff teeming with life (millions of little fishes moving and squirming as in a net ... soooo much life from her... I'll give you a chance to preach there... and when you do tell her these things.

09 1109 Word: Southern Minnesota Revival **Share**

- 1) Word: Now I have something important to say... about the coming revival (I90 and Rochester in context) ... **the people need to see Me in power... This I will do...** The pastors in the RIVER90 cities have been crying out for more, just like you!
- 2) The intercessors the same... There has been a cry across the bottom of this state in the little towns for years... I am about to come to visit them... I will visit them in wisdom and power... I am a God that works in unison and unity, building up all as I go...
- 3) There are people that are crying out to me, that have not been taught to hear me...Would you help? ... to small groups... then larger! Then watch me work...
Zechariah 9:12 Return to the stronghold, O prisoners who have the hope; This very day I am declaring that I will restore double to you. NASU

- 7) There will be a flowing fire like a shock wave of My glory flowing down this channel of I90 from East to West and back and forth. They will draw the eyes of the country and some from other countries, saying "what is this thing the Lord is doing in these small towns, and why did He pick them?"
- 8) **But they will not have seen the prayers and labor for Me, and how that has stirred Me to show My love to them in extraordinary ways.**

11 0120 Albert Lea

Look, look, look I am coming. There will be a flurry of activity in Albert Lee. Eyes will not be able to believe the glory they will see. Some will be ecstatic and in a state of wonder. For I am coming to a people that I love, who have waited faithfully for so long. They shall have their reward! It will be like soft butter on the lips, that runs down the cheek. I will come to them softly and gently for they are precious and intricate, and ornate.

11 0120 Austin

My Austin! My Austin, My Austin. They are ones who have sought me for so long. Who are tired, but will be refreshed. They have cursed the darkness with their zeal for me. They have fought the hate that has entered their town. But I am bringing renewal and unity again. I am going to restore the unity that the enmity caused to depart. The sense of it will be exhilarating. For I will fill this city with love again, and people will feel it as they drive through her... again.

11 0120 Blue Earth

This is the town that not many people see, but they shall see her! For I am stirring in my people a flurry of desire for Me, for people to see Me. I am working in the ones that have desire and don't know what to do about it. I will show them the watering hole! I will quench their thirst, and increase their hunger for Me, and then I will gloriously satisfy them with a contentment that comes with being full. And this will come in wave after wave.

11 0120 Jackson

This hamlet will be surprised when I come, like waking up to a warm home cooked breakfast. For I will feed them in the midst of the freshness of a new cool morning at sun rise, for the Son shall rise on them with a shout! In the cool of the day! Says the Lord! Their business leaders will be stunned, and mystified. What a day that will be, and what joy I will have... I have in placed right now the leaders that will emerge to carry My

mantle across this city. Oh, Jackson, you have never a revival like this, but you will have, for I am coming soon!

11 0120 Wykoff

There are people that have asked for me to come in this city. Some have come to be with me, but I have remnant. I always have a remnant. I will bless this city with what they have asked for. There will be meetings in homes where not all the people that come for the meeting can get in, and I will meet them in the cool grass of the lawns. I have ordained a work to come out of that city for the nations. It has not yet come, for it is being birthed with pain and labor, but My fire will fuel this work which many in that city will produce and be part of.

12 0905 Open Vision: Austin/Winona

Open Vision: I was laying on my living room couch in early afternoon and suddenly a vision and an instant knowing entered my spirit right inside me. I saw Austin, MN with a canopy like a half an egg on its side. This canopy was transparent but restrictive to the people under it. I sensed that many had tried to rise up to greater things in God but were inhibited and restricted, and eventually pushed down. The cause of the canopy seemed to be a generational curse, and needs to be broken. I think the sense of the generational thing started before 1900... The sense over the city was a "pushed down deadness", as best as I can describe it, that holds down advancement in the Kingdom of God. **The amazing thing is that the same spiritual sense was on both Winona and Austin...the feel of it was the same...I sensed both in the vision.** The sense I had was that when this is curse or sense is removed, very great freedom and joy will be experienced by the people in these two cities. Wonderful people, pushing for God, being pushed down... These people have lived under this thing for so long that it seems normal and is not generally noticed.

12 1031 Word: Austin Country Spin Around

"...I want to turn this country around...to face them toward Me so they can see Me, instead of looking in other directions... Doeg the Edomite had access to My **chesed** Strong's #2616 Vines but he continually looked the other way (in his mind and heart) ... Spinning people around in their mind, body and spirit is what is needed... To catch their attention...all of them... spinning around involves someone causing it or an event that attracts attention... No one is talking about My actions with this storm (to many, just a natural event). Catastrophic events don't enable permanent change always... Having meetings that no one comes

to does not help... **I want My Presence to settle in and hover over cities in a tangible way,** where people say "wow, wow!"

That gets the attention of their hearts, and opens them up to the supernatural ... Me!

But I'll need people ready to demonstrate and explain what is happening so people can reference it and comprehend it... I am an amazing God, and I am full of ideas and excitement for all my people...to draw them in so that I can hug them... That they would love The Lord their God with their whole mind, souls and spirit... Continually to come before me and I will give you strategies and trips, and insight... **there will need to be a confrontation in Austin to dispel the canopy of the enemy over them...** I will show you this later...but for now continue before Me. Stay in My presence. **I will cause a tipping point in that city that will topple the strong holds in a day!"**

13 0514 WORD Rochester youth revival coming - Les Homan

VISION: I saw a vision where some youth or young people were in a central place (like somewhere in the center of Rochester) and all of a sudden they looked up over their shoulders and they saw the Lord Jesus, and when/as they did, I saw a fire burning on the perimeter of a circle from the center point (where they saw Jesus) outward in ever increasing diameter across the city till the circle encompassed the whole city of Rochester. As the fire (all along the circle perimeter) turned outward it burned everything inside the circle turning it black. Then, I saw that the area where the black was gradually turn green all over with fresh tender soft plants growing up. It was like the fire burned off the stuff that hindered and the enemy stronghold was gone. The sense had was that this revival will not fit the traditional church mold, will not be centralized in one place, but will be communicated more like one on one in small groups as they share what they see...Then I got this poem: (**Word: 14 0808** the fire that will create this is a fire coming out of worship.) Eph 2:13 But now in Christ Jesus you who formerly were far off have been brought near by the blood of Christ. NASB

Prophetic Poem concerning coming youth revival:

I will start a fire in the middle of this town
I will start a fire they won't put down

I will start the fire in a central place
But there will be no central meeting space

The enemies country will be darkened and
burned

And in its place my kingdom will return

Behold I am coming with a vengeance and a
holy fire

To obtain those of My hearts desire

From the youth it will transpire

For I will draw them higher

For when they look over, up, and back

They will see the One that they lack

13 0615 River 90 How to keep going

- 1) Vision: Saw us spreading the fire across and back along I-90 similar to the way we would burn ditches years ago. We would drag a burning sack along catching the dry grass on fire as we did, or we would take what was burning and drag it along to ignite the areas we wanted to burn...
- 2) We would catch the fire and spread it along by one means or another. Spreading the fire is literally what we are to do... See and share, see and share, see/share and add fuel, see/share and add fuel...

13 0719 River90 starting sooner and trusts me

14 0104 Backwater DREAM (See Dates 17 0124, 17 0202, 17 0215)

- 1) Along a river or a river back water... I think somehow I owned or just acquired some land along a river that was large and had back waters. (along with some other men who seemed to have already owned some land along it... seems like Duck Dynasty type of closeness)
- 2) We all had big high end pickups to drive and pull things, and we were going from place to place helping each other do things to improve it... Particularity, for about three times I think, we would hooked onto large tandem axle flatbed trailers that were under water and pull them out (they seemed to be located in areas where you might back your boat into the water)... these trailer had good materials on them (not affected by the time in the water)... seems like they were forgotten or abandoned under the water in the river... a Couple of people waded into the river and got all muddy to hook cable the trailer to the our large pickups to pull them out... and they would get all muddy, and when

- they came out of the water everyone would laugh and be funny as they washed themselves off with the hose...
- 3) Seemed like I was given land along this river backwater along with some others... they seemed to accept me even though I came in late and was not part of their clan originally...
- 4) The day was warm, and the water was warm ... I was initially afraid the water was going to be cold, but it was not... one pickup was large and white ... had lots of power and was new... the men with me seemed to have wealth and ability to buy stuff... we drove various places along the rivers backwaters to get to the various places that we had to pull out the stuff from the river...
- 5) This some dream reoccurred several times before I woke up...

My Interpretation: This dream is about resources to be for ministries that have been abandoned because they could not be used by the people and ministries that failed... we have been granted ownership of some of this material along with others...there is unity among you and you are helped by them (people along this river who own parts as well). Previous ministries missed it and we (via the Lord) are going to revive these ministries...we have the provision needed to do the job...pickup trucks, cables and ropes, and the means of cleaning things up.

15 1206 Terry Pratts: Farm House Word

I saw a rural setting. A white house surrounded by trees and yard. Beyond the trees/yard was plowed field. In the distance were groves of tall trees. It was night time and there was very little light. However, there was a glow coming from the house. A glowing circle came from the distance and moved toward the house. The glowing light hovered for a while and then descended into the house. Immediately, a circle of light (a glow) surrounded the farmhouse at the ground level. I could see the light just above the ground, and I knew that the light was also down in the ground. That glow expanded out away from the house into the fields. As that glow moved across the plowed field, I watched as it got to the first grove of trees. When it moved into the grove of trees (they looked like a mixture of mature hardwoods), the trees straightened up. - The trees had not looked like they were leaning over before the light hit them, but after the light passed, they were standing straighter and taller. - I then watched as the glow on the ground spread north. It moved until it reached a point and then spread east and west in a straight line (Martin county line). - I then was back at the house and saw two more glowing lights moving through the earth. One was spreading up from the south east and one from the south west. All three quickly joined south of the house, and I knew that the entire county was covered with the light.

My impressions:

- The light in the house = prayer and worship
- Rural setting = it is not an organization (like a church or a city), but rather individuals
- The hovering light = Holy Spirit
- The light that moved through the ground = change occurring at ground level in the county. Change, starting in the field, and touching everything.
- The trees straightening up = Two things: Other believers being encouraged and empowered. Nature responding to God's presence.
- The two lights moving up from the south = there are other people/groups investing time and effort in this task of drawing the presence of God into the area. Holy Spirit will see that everyone is joined (when the time is right).
- I felt that this is not something for the future. I felt that it is now. It **IS** happening.

16 0213 Word River 90 future mind (Kanarazi river Enemy Stronghold)

An event took place near the Kanarazi river area where the enemy has a strong hold... a place where he wants it to remain barren... But I will send you there to clear that place just like you cleared Hwy 52 south of town. That area needs to be cleared and freed from bondage of barrenness. The enemy did not know the plans I have for the Kanarazi river area.

16 0726 Terry Pratts Air Cover ON River90

- 1) Woke up this morning with a phrase ringing in my mind. I saw a picture of I-90 as the phrase rolled around. That phrase was "AIR COVER".
- 2) 100 years ago a new weapon was used in warfare.... the airplane. Control of the battle came to depend more and more on air superiority.
- 3) So, I-90 and air cover? - I felt like the message was that we have air superiority, but as in battle, it is the responsibility of the troops on the ground to call in air support. Our angels are waiting to work. How about if we ask them to provide air cover for us? - The focus is on the battle, but air cover makes the battle easier.

17 1116 Terry Pratts 11/16/2017

- 1) I saw a picture of a rider on a horse. The horse was standing on I-90 at the eastern border of MN. The rider was dressed like Paul Revere, and he held a lantern in his right hand. As I looked, the horse started to gallop along I-90 toward the west. The trip took less than one minute. At the western border he spun around and galloped back to the eastern border. He wheeled the horse around and stood facing the west. I understood that he was looking for prayer "lights" back along his route.
- 2) Paul Revere rode to warn and to move people to action. I understood that this I-90 rider made the ride so that people would be called to pray. After the ride, he stood looking west. He was looking for prayer "lights" to come on.
- 3) So..... What are you praying about, I-90 warriors? Tell the rest of us what burden the Lord has given you. - Lights are not hidden. Lights are visible to all...just like the rider's lantern.

17 0729 Terry Pratts Jesus' Smile on River90

I asked "What about the I-90 Corridor?"

I saw a picture of Jesus smiling over I-90. The Jesus I saw in the picture was not human size, he was "Universe size". I only saw

his head as he looked down on I-90, and his head was as wide as half of the horizon. He is huge, and his smile is equally huge. From my vantage point on the ground near Wells, I look up and see his smile and I sense his Joy. I feel that his message is "Get out and do. Then I will show you growth like you have never seen before. Get out and do." I sense his pleasure I sense and see his Joy.

I then saw people outside the prayer Center building at Wells. They were all facing east, and they were all pointing at something happening in the east. It seemed the Jesus was directing them toward the east.

So....

- Know that he is happy.
- Know that he is pleased.
- Feel his joy.
- Experience his pleasure.
- Move as he directs.
- Receive his blessing.
- Rest in his peace.

17 0202 Word Backwater direction (See date 14 0104 Dream)

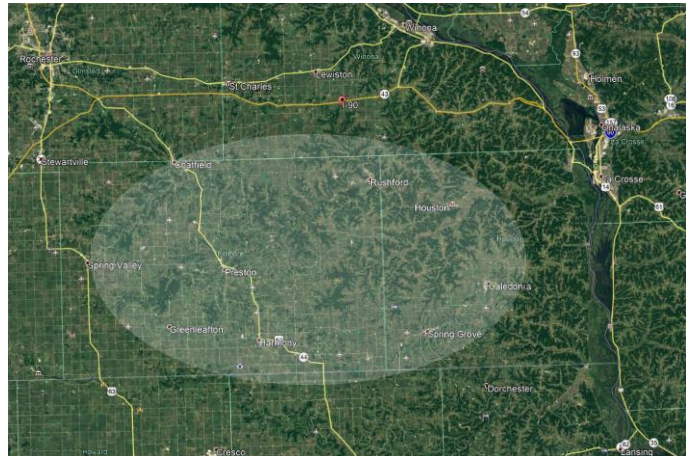

(Part of a conversation I had with the Lord on the Backwaters)

1. Les, look at Me...(Vision: I saw Jesus in a sleeveless vest and long sleeve shirt, and shorts??) We are walking on a cutout road around a tall hill (dusty) going upward... As we are going up the road around this hill on the road, I can see a green distant plane, green and lush as I look far to the left in the distance. It was like we were in a place where we could see this green plateau without being discovered. Not sure why I needed to be undiscovered...
2. Lord, why is this? Les, you can see the beauty of this land, but they cannot, even though they live there... Les, We are going to open their eyes. I want to open to the what they have and help them inherit it and take position of it... Les, there is a particular way that I want to open this up to them so they can receive it all...
3. Why are You incognito Jesus? (He appeared dressed in work cloths) Les, I'm not incognito, you recognized Me didn't you. But it is that we have work to do... together... **I want you to get on a high hill and prophecy the words I give you over this land...** Then I will call them (the people) forth... For I have a joy to bring them into, and I want to bring them back to what is theirs from the past that was stolen and scattered... Remember the back waters dream! I want to start bring these resources out again and start to build.

17 0215 Backwaters Discernment (See Backwaters Pic/Map below) Share

There is what I'm feeling right now regarding the "Backwater" area in SE Minnesota:

- 1) This area is extremely important to the Lord, and it is strategic for the Kingdom.
- 2) This "Backwater" area feels spiritually "Hot" right now like Holy Spirit stirring.
- 3) I'm thinking that there are people praying all through the area... people we do not know... intercessors. There seems to be a stirring in my spirit along those lines.
- 4) There is a strong desire by the Lord to revive/restore this area, and to manifest the Glory of God that the Lord has been trying to manifest over the years... this has been suppressed and

beaten down in various ways.

- 5) What the Lord is wanting to do is restore His Glory in the area (Backwaters) via ministries that were in the past (He has been holding them for the proper time for us), and to enhance them beyond what we all think can be.
- 6) There seems to be a circle on the map that is the "Hot Spot" of activities... Rushford on the north, Caledonia on the east, Lanesboro/Preston on the west (Although not so much Preston as Lanesboro), and Mable/Spring Grove on the south.
- 7) There are smaller towns and "hamlets" that will become significant as we step into what the Lord is doing in these backwaters...
- 8) This area feels like it is loaded with gold (extremely valuable)

17 0215 Backwaters Strategy

- 1) Based on the dream (Jan 2014) it seems like there are people that know where the gold is buried in the Backwaters. Jeff and Dave, it seems like you two are significant in this, and I think there are others... Our problem is to determine who they are and establish them as allies in what the Lord is doing...
- 2) I felt like the Lord said to get on the high spots and prophecy over the and in several spots..."to call them out" for the Lord.

- 3) It seems like this is a strategic area for the whole River90 project... It covers about a 4th of the Minnesota I90 distance... Maybe it would be good to somehow get the Lord's River90 vision communicated to the area to give perspective of what God is doing???
- 4) We need to meet and pray together and see what everyone is feeling...

17 1124 Terry Pratts Horse/Rider on River90

<https://www.facebook.com/groups/641573156000275/permalink/958839104273677/> 1/1

Last Tuesday I saw another picture of the rider and horse on I-90. The horse was standing on I -90. He was so large that he was able to step over any of the highway overpasses. When I saw the horse and rider, they were over the top of an overpass. The rider was standing up in the stirrups, and he was intently looking south along the road which crossed I-90. There were no cities visible near either highway. The rider saw something, and threw a glowing yellow green ball south along the highway. I watched the ball follow the highway south until it traveled out of my sight. I sensed that the glowing ball was empowerment. The rider had seen a group of believers and was sending a special blessing to empower them to complete their Kingdom task. I also sensed that he was going to make multiple stops along I-90, looking for things happening in cities on either side of the road. So..... keep praying people of I-90.

19 0310 Terry Pratts River 90 Prayer

So, I'll start it off. I'm praying that the people and cities along River 90 will feel/experience Daddy's touch and the depth of His pleasure which is directed to us.
